in a series of sketches regionalist writers such as Alice Cary Mary E. Wilkins Freeman Sarah Orne Jewett Grace King Alice Dunbar Nelson Sui Sin Far and Mary Austin critique the approach to regional subjects characteristic of local color and present narrators who serve as cultural interpreters for persons often considered out of place by urban readers in their approach to these writers Fetterley and Pryse offer contemporary readers an alternative vantage point from which to consider questions of regions and regionalism in the global economy of our own time jacket

The Oxford Handbook of American Literary Realism offers fresh interpretations of the artistic and political challenges of representing life accurately. It is the first book to treat the subject topically and thematically in wide scope with essays that draw upon recent scholarship in literary and cultural studies to offer an authoritative and in-depth reassessment of major and minor figures and the contexts that shaped their work.

This book collects some of McDowell's most influential papers of the last two decades. The essays deal with themes such as the interpretation of Aristotle's and Plato's ethical writings, questions in moral philosophy that arise out of the Greek tradition, Wittgensteinian ideas about reason in action, and issues central to philosophy of mind.

An interdisciplinary journal of the South

Regulation, Economics, and the Law presents a selection of the most important published articles on key issues arising in the design of social regulation. It focuses in particular on interventionist measures used to protect primarily the environment, health, and safety, and consumers. Professor Ogus uses both public interest and private interest theory to investigate and evaluate the legal forms and procedures. The volume covers, on the one hand, traditional command and control

techniques such as licensing and standards and on the other newer techniques such as economic incentives and emissions trading rulemaking procedures institutional structures and the impact of international competition are also considered regulation economics and the law will be an invaluable source of reference for economists lawyers and policymakers working in these fields

in the twentieth century american society has experienced a rights revolution a commitment by the national government to promote a healthful environment safe products freedom from discrimination and other rights unknown to the founding generation this development has profoundly affected constitutional democracy by skewing the original understanding of checks and balances federalism and individual rights cass sunstein tells us how it is possible to interpret and reform this regulatory state regime in a way that will enhance freedom and welfare while remaining faithful to constitutional commitments sunstein vigorously defends government regulation against reaganite thatcherite attacks based on free market economics and pre new deal principles of private right focusing on the important interests in clean air and water a safe workplace access to the air waves and protection against discrimination he shows that regulatory initiatives have proved far superior to an approach that relies solely on private enterprise sunstein grants that some regulatory regimes have failed and calls for reforms that would amount to an american perestroika a restructuring that embraces the use of government to further democratic goals but that insists on the decentralization and productive potential of private markets sunstein also proposes a theory of interpretation that courts and administrative agencies could use to secure constitutional goals and to improve the operation of regulatory programs from this theory he seeks to develop a set of principles that would synthesize the modern regulatory state with the basic premises of the american constitutional system teachers of law policymakers and political scientists economists and historians and a general audience interested in rights regulation and government will find this book an essential addition to their libraries

while john singer sargent 1856 1925 is most known for his salon portraits his late landscape paintings notably those completed from 1905 to 1917 mark an important departure for him in them he explored stylistic avenues suggested by the late impressionists while reflecting a contemporaneous victorian interest in unspoiled nature t j jackson lears places the late landscapes in the context of the time travel attention and exploratory interest sargent lavished upon them examining them against the larger background of america s reconsideration of nature s place in the humanities sargent s modernist tendency as an experimental painter later in his career is the focus of erica hirshler s essay hilliard t goldfarb writes about sargent s candid sometimes amusing often pithy and practical observations on travel and work using archival material at the gardner museum as well as sargent s letters and recorded recollections by his circle of friends
